Robinson Fire Loss Half Million

FIRE OF UNDETERMINED origin starting in the sawdust collector of Robinson's Furniture Manufacturing Co. about 11 a.m. Saturday destroyed the big plant at Jam Dam in Gourley Township, northern Memoniee County with a loss

estimated at more than \$500,000. This is the way the ruins looked on Sunday with three bulldozers at work clearing the site of rubble and removing the burned-out machinery.

twin-engine private plane crashed and exploded in a rice field near the Beaumont Municipal Airport early Sunday, killing all seven persons aboard, including the coach and five members of the Lamar Tech track team returning from the Drake Relays.

Dick Oliver, publicist at Lamar Tech, identified the dead as E. W. McCall, the pilot; Coach Tyrus "Ty" Terrell, and squad members Randy Clewis, of Palestine, Don Delaune of Le-Marque, Mike Favazza of Beaumont, John Richardson of Beaumont and Waverly Thomas of Galveston, all of Texas.

The Federal Aviation Agency said the plane went down about a mile north of the runway after making a routine request for landing clearance.

Gus Guillot of the FAA said. "The plane gave no indication it was in any kind of trouble."

The sheriff's office said the fuel tanks exploded after the craft crashed. He said flames were so intense it was difficult for rescuers to get near the blaze.

The Cardinals' one-mile relay team of Delaune, Favazza, Thomas and Richardson placed second to Texas in a record race at the Drake Relays in Des Moines Saturday. Lamar Tech did a 3:07.3, one-tenth of a second under the old record, but Texas won in 3:05.2.

The same Lamar Tech foursome finished fourth in the sprint medley relay with 3:21.5

Community Schools

While the Upper Peninsula is moving strongly toward the community school program, Escanaba Area schools are moving away from it.

This was an implication of the conference on community schools and vocational education sponsored by the Human Resources Committee of UPCAP at Northern Michigan University, Marquette.

The community school concept is 15 years old or older in Michigan. It had rather lumpy acceptance at first. The Kellogg Foundation spent a lot of money financing a study of what schools might do to serve their communities better and more fully. The plan that evolved (it's still very fluid) has had its greatest impetus from the program in Flint, where the Mott Foundation has given \$42 million to help the plan along.

Basically it regards schools as facilities to serve all the educational needs of the communities. Obviously this means that they should be open to the adults of the community as well as the students, because learning in its modern meaning is a lifelong process and not something that only children work at and only from 8 to 4 five days a week and only 9 months a year.

Community schools are open at night as well as in the daytime, and on weekends and they regard it as their duty to serve any learning need of the community and also to provide recreation and cultural enrichment, job training, personal counseling, etc.

Northern Michigan University has a program to train community school directors and it reports that 30 per cent of the U. P. will have access to commmunity . schools by July 1.

WINDOW TREATMENTS offer you a chance for fresh, individual decorating touches, even after you have solved the basic problem of light control and privacy, through curtains, draperies, shutters, shades, blinds, or whatever you select appropriate to the room.

There is often a problem of furniture placement in relation to large window areas. Most of us don't care to sit with our backs to the window. If you do place furniture before the window, avoid too-solid pieces. Open-armed or cane-backed pieces, for instance, let the light come through and the view.

One of today's most popular furniture items is the long table or the long low chest designed to fit under a window. Beautiful in themselves, they also provide extra storage (many will house such things as stereo components). And they offer a setting for the display of important accessories and art ob-

In fact, versatile chests -- there are beautiful examples in every furniture style - can be one of your most important purchases. Stop in and see the new ideas in our display. One might prove to be an important focal point for your living room, to dramatize a wall or window area.
